2020 PACKAGE
INFO & PRICING

The No Worry Wedding Package

Weddings have never been easy to plan. Now that we're faced with more unpredictability and financial strain, being unsure of *what to do next* can often feel like the right move is to just give up on having that dream wedding altogether.

We don't believe that's true! So we've designed the **No Worry Wedding package**.

The No Worry Wedding package is our way of making booking your

entertainment and planning the other details of your wedding simple.

What do you get when you book a No Worry Wedding with us?

- **Affordable Entertainment** to make a great wedding light on your wallet
- **Flexible Scheduling** for when life throws an emergency at you
- **Specialized Planning Tools** to make your wedding day totally painless

That sigh of relief you just let out? That's a good thing! If your shoulders are less tense after reading that, keep reading!

Throughout this brochure, we'll explain how we'll give you all of this and more (and even kickstart your planning with a mini timeline leading from now until the big day).

Find out how Golden Note Entertainment has provided countless couples with excellent service through every stage of their weddings.

Won't This Be Expensive?

Very often when clients first meet us they think, "I'll never be able to afford them!" because we seem expensive and dynamic, outside of the range of their budget.

This simply isn't true. Unlike companies that are charging crazy amounts just for the DJ to show up, our pricing has always been more affordable. By allowing some flexibility to your date, we can actually make it even more cost effective.

How can we do this? Rather than hire unpredictable subcontractors, we have a dedicated team of MCs and DJs on staff, so we can always guarantee that you'll have excellent entertainers on your event, even if your date has to change because of an emergency.

What's even better? If you do a little homework and get to know our team, you can upgrade to choose your MC and secure your date with their name on your contract.

Make Your Planning Completely Painless

The heart of this package is making the planning process completely painless. To do this, we're giving you a ton of excellent tools.

The screenshot shows a web application interface for selecting music. At the top, there are navigation buttons: HOME, MY EVENTS, MY PROFILE, CONTACT, and LOGOUT. The main heading is "Select Your Music" with a "Planning Options" button in the top right corner. Below the heading, there are tabs for "Artist", "Song", "Top Hits", "Ideas", and "Add Your Own". A "Your Requests" button is also present. A grid of letters (A-Z, 0-9, #) is displayed, with the letter 'V' highlighted. Below the grid, there is a search bar with "Post Malone" entered and a "Search" button. A table of music suggestions is shown below the search bar, with columns for "Artist", "Song", "Select", and "Preview". The table lists several songs by Post Malone and other artists, each with a plus sign in the "Select" column and a speaker icon in the "Preview" column. To the right of the table, there is a "Must Play" section with a dropdown menu and several options: "Play If Possible", "Dedication", "Play Only If Requested", and "Do Not Play".

PLANNING TIMELINE

We don't want to get crazy here, but let's get some details in order. To plan effectively, there is stuff you need to get done way in advance of your wedding and stuff that you want to consider within the weeks before.

This timeline is just a taste of when you should be thinking about different aspects of planning your wedding.

Our planning tools and email reminders will help you stay on track with this and many more nitty-gritty details.

1 Year Out

If you haven't secured a venue by this point, you should! Try line up all of your vendors, too. Have you started going to bridal shows? It might help!

11-10 Months Out

Piece together the details. Color schemes, center pieces, pick stationary, gather contact info for your guests, etc.

9 Months Out

Do you have your dress? Bridesmaids dresses? Suiting? Get theses and, equally important, the rings! Start the search for hotels now, too.

6 Months Out

Send out those Save the Dates! Try to also pin down the other important gatherings: Bridal party, bachelor and bachelorette parties, etc.

3 Months Out

Send out those invitations. Setup plans for your rehearsal dinner and start mapping seating arrangements.

5 Weeks Out

Start to finalize plans and details with your vendors. Make sure you're ready to pay your contract balances.
